SECTION 2

10. **Section 2: 16/P/1701/F Retention of an outbuilding with terrace over and retention of bi-fold doors to rear of dwelling (Amendment to planning approval 14/P/2131/F) at 47B Hill Road, Clevedon, BS21 7PD**

REFERRED BY COUNCILLOR HALL

Summary of recommendation

It is recommended that the application be **APPROVED** subject to conditions. The full recommendation is set out at the end of this report.

Background

Planning permission was granted for a two storey rear extension and outbuilding in November 2014 (14/P/2131/F). A complaint was received that the development was not being built in accordance with the approved plans with a larger outbuilding erected to the rear. As a result of an enforcement investigation, the owner has submitted a retrospective planning application to retain the development as built.

The Site

The application site comprises a two storey property situated to the rear of 47 Hill Road in Clevedon. The property is bounded to the rear by 'zig zag' an access leading to properties on elevated land between Hill Road and Dial Hill Road. Residential properties are situated to the north and south of the site. The application site is situated within the Conservation Area.

The Application

Planning permission is sought for the retention of an outbuilding to the rear of the property to form a store. The outbuilding measures 4.5 metres in width and 3.2 metres in depth. The building is 2.5m in height. A terraced area has been formed on the roof of the outbuilding (as per the previous application) with stairs leading up to it. The outbuilding is no higher than previously approved, however it has a larger floor area and has not been attached to the rear boundary wall as was previously shown. The application also proposes a different design to the windows and doors on the rear of the approved single storey extension.

SECTION 2

Relevant Planning History

Year	Reference	Proposal	Decision
2014	14/P/2131/F	Erection of a two storey and single storey rear extension and an outbuilding with terrace over	Approve with conditions

Policy Framework

The site is affected by the following constraints:

- Within the Clevedon settlement boundary
- Within the Clevedon Conservation Area

The Development Plan

North Somerset Core Strategy (NSCS) (adopted April 2012)*

The following policies are particularly relevant to this proposal:

Policy Ref	Policy heading
CS12	Achieving high quality design and place making

*** Core Strategy - High Court Challenge**

Following a legal challenge to the adopted Core Strategy, Policy CS13 (housing requirement) was remitted back to the Planning Inspectorate for re-examination. In addition, Policies CS6, CS14, CS19, CS28, CS30, CS31, CS32, CS33 were also remitted on the grounds that should the housing requirement be increased, then this may have consequences for one or more of these policies. All other policies remain adopted. Policy CS13 was approved by the Secretary of State on 18 September 2015 and forms part of the development plan. The examination of the other remitted policies is currently taking place.

North Somerset Replacement Local Plan (NSRLP) (saved policies) (adopted March 2007)

The following saved policies are particularly relevant to this proposal:

H/7	Residential development within settlement boundaries
-----	------------------------------------------------------

SECTION 2

The Sites and Policies Plan Part 1: Development Management Policies (adopted 19 July 2016)

The following policies are particularly relevant to this proposal:

Policy	Policy heading
DM3	Conservation Areas
DM32	High quality design and place making
DM38	Extensions to dwellings

Other material policy guidance

National Planning Policy Framework (NPPF) (March 2012)

The following is particularly relevant to this proposal:

Section No	Section heading
7	Requiring good design

Supplementary Planning Documents (SPD) and Development Plan Documents (DPD)

- Residential Design Guide (RDG1) Section 1: Protecting living conditions of neighbours SPD (adopted January 2013)
- Residential Design Guide (RDG2) Section 2: Appearance and character of house extensions and alterations (adopted April 2014)

Consultations

Copies of representations received can be viewed on the council's website. This report contains summaries only.

Third Parties: 4 letters of objection have been received. The principal planning points made are as follows:

- Overlooking from the balcony.
- Terrace is inappropriate in the conservation area
- Outbuilding is being used as residential accommodation
- Built too close to the ZigZag to the rear which can cause destabilisation to the highway.

Clevedon Town Council: "Recommend refusal - consider the built dwelling to be inappropriate development on this site which affects the amenity and

SECTION 2

overlooks the courtyard of neighbouring properties. The dwelling that has been built is not in accordance with approved application 14/P/2131/F which was for a bicycle/garden store. The dwelling is used as a third bedroom with en-suite shower room it has a larger footprint and is attached to the adjacent Coach House of the neighbouring property.”

Other Comments Received:

Clevedon Civic Society:

Express concern that the building is used for habitable accommodation. The proposal has an adverse impact on the neighbouring property. Ask that the application be refused.

Principal Planning Issues

The principal planning issues in this case are (1) the principle of residential extensions in this location, (2) living conditions of neighbours, (3) character and appearance and (4) conservation area.

Issue 1: The principle of residential extensions in this location

The site falls within the settlement boundary for Clevedon where the principle of residential development is acceptable in accordance with policies CS32 of the Core Strategy, DM32 and DM38 of the North Somerset Sites and Policies Plan (Part 1) and policy H/7 of the North Somerset Replacement Local Plan.

Issue 2: Living conditions of neighbours

Policies DM32 and DM38 of the Sites and Policies Plan Part 1 require that new development should have no significant adverse effects on adjacent areas through overlooking, overshadowing or overbearing impact. In this particular case, it is not considered that the outbuilding due to its size and position causes any significant overshadowing or overbearing impact.

Concerns have been raised that the outbuilding, and in particular the terrace above it, causes overlooking into the neighbouring courtyard at no.45 Hill Road. The balcony however is set back behind the neighbouring wall at no.45, which provides screening to the courtyard of the adjacent property. Therefore it is not considered the balcony area cause any significant overlooking into the neighbouring property.

The applicant has confirmed that the outbuilding is not being used for storage and is not being used as a bedroom.

SECTION 2

The amended design to the doors and windows to the rear of the main property also results in no additional harm to the neighbouring residents over that which was previously approved.

In conclusion the development is not considered to cause significant harmful impact on the living conditions of neighbours through overlooking, overbearing impact or overshadowing. Therefore the development complies with the Residential Design Guide and policies DM32, DM38 and H/7, which seek to protect the living conditions and privacy of neighbours.

Issue 3: Character and appearance

Policy CS12 of the Core Strategy requires a high standard of design in all new developments. These policies require that development is sensitively designed to respect the character of the site and its surroundings, taking the opportunity to enhance an area where relevant. In particular, consideration will be given to the siting, levels, density, form, scale, height, massing, detailing, colour and materials of a development and whether these characteristics respect those of the existing building and the surrounding area.

The outbuilding is situated to the rear of the property and behind a high wall backing onto Zig-Zag. It is not visible from Hill Road and is not readily visible from public viewpoints. For these reasons the development would not adversely affect the character and appearance of the application site nor would it affect the character of the wider area. It would therefore comply with policies CS12 and DM32 in regards to the character and appearance of the area.

Issue 4: Conservation area

Concerns have been raised that the outbuilding and its terrace has a harmful impact on the conservation area. As previously pointed out, the outbuilding is not visible from Hill Road to the front and is also not visible from the ZigZag to the rear as it is set below the level of the road. The development is not visually prominent in the conservation area and does not adversely affect its character or appearance. Therefore the proposal complies with policy CS5 of the Core Strategy and DM3 of the Sites and Policies Plan Part 1.

Other Matters

A dispute has arisen between the owners of 45 Hill Road and 47B Hill Road regarding the ownership of the wall against which the new outbuilding sits.

Concern has also been raised that the outbuilding is causing a damp problem to the adjacent building.

SECTION 2

Private issues between neighbours such as land and boundary disputes, and damage to property are not material planning considerations that can be taken into account in reaching a decision on the planning application and these matters are covered by other legislation. These are matters which should be resolved between the applicant and the neighbour.

Concerns have also been raised over the structural impact of the outbuilding on the Zigzag to the rear. The outbuilding does not connect to the rear boundary wall and for this reason it is not considered that the outbuilding results in any structural damage to it.

Natural Environment and Rural Communities (NERC) Act 2006

The proposed development will not have a material detrimental impact upon biodiversity.

The Crime and Disorder Act 1998

The proposed development will not have a material detrimental impact upon crime and disorder.

Conclusion

In principle, proposals for householder extensions and outbuildings such as this are acceptable where they comply with all over relevant policies and advice. It is considered that the proposals will not cause unacceptable effects on neighbours in terms of overlooking, overbearing and overshadowing. The proposal would therefore comply with policies H/7, DM32 and DM38 which seeks to protect the living conditions and privacy of neighbours.

The proposals would not adversely affect the character of the conservation area and would not affect the character of the application site. The size and height of the outbuilding is not out of character with the area, and the amendments to the doors and windows at ground floor level to the rear are considered acceptable. The proposals therefore comply with policies DM3, CS12 and DM32 in regards to the character and appearance of the area.

RECOMMENDATION: APPROVE (for the reasons stated in the report above) subject to the following conditions:-

1. The development hereby permitted shall be carried out in accordance with the approved plans and documents to be listed on the decision notice.

Reason: For the avoidance of doubt and in the interest of proper planning.

SECTION 2
